

CULTURAL TOUR TO EAST-TURKANA

MARSABIT COUNTY

09 - 20 JULY, 2023

This tour takes you to the North-Eastern part of Kenya hitherto hardly touched by tourism. You will follow the shores of Lake Turkana, meet and interact with various Nilotic and Cushitic ethnic groups. Further North you will enter the “Cradle of Mankind”, where we all come from, and get an insight into the development of our ancestors from early hominin to homo. Although the emphasis of this tour lies on geological, paleontological, historical and anthropological aspects, once in Samburu you will still meet with the famous Kenyan wildlife. Thus this tour offers you a broader insight into the various facets of Kenya than any

other tour.
